

I am in favor of your rejecting the NAB's petition 01-160. XM radio is a real pleasure to listen to and is EXTREMELY helpful with it's weather and traffic channels. Living in the (very conjested) metro Washington, DC area having real time traffic is of great help. Being able to have commercial free channels with a variety of channels (some very nice relaxing ones, especially) also help with very stressful driving conditions in this area. XM is the best thing to have hit town. PLEASE KEEP IT!
